Experience

SDE 2 | Amazon - Selling Partner Services | April 2026 - Present

- Worked in the financial systems for selling partners that powered reporting for all sellers.
- Worked heavily on developing a new system that ensure real time data processing of all financial transactions of all sellers with a minimum SLA of 30 minutes.
- To maintain SOX compliance, was also part of the team that developed reconciliation of the financial transactions as part of the new system,
- Mentored multiple SDE-1(s) and conducted interviews for SDE-1 hiring
- **Tech Stack:** Java, Typescript, AWS EMR, Apache Spark

SDE 1 | Amazon - Digital Acceleration | August 2024 - March 2026

- Worked in the Digital Promotions team where we oversaw pricing and sales promotions across all digital products in Amazon across all marketplaces including Kindle, Prime Video and Audible.
- Worked on developing a cross cutting technical strategy for enabling promotional support on cross currency purchases of digital products within a marketplace
- Worked on delivering prime exclusive deals for Digital products which involved cross cutting work, across deal creation, pricing, and reporting for the same.
- Worked on enabling coupon support for Kindle books in the JP ecosystem.
- Also worked on migrating an internal legacy workflow orchestration system to a newer orchestration paradigm that impacted around 9M workflow executions a month.
- Mentored multiple SDE-1(s) and interns in the team
- **Tech Stack:** Java, Typescript, AWS

Member of Technical Staff (Converted Internship) | Clearfeed | Jan 2024 - July 2024

· Proven ability as a full-stack developer, contributing to frontend and backend components within the organisation.
· Worked on the internal architecture behind the ticketing systems offered along with external ticketing systems such as Freshdesk, Zendesk, JIRA, Hubspot and support for ticketing forms for the same.
· Leveraged SQL queries via Cube to deliver accurate measures on ticket resolution and response metrics.
· **Tech Stack:** Typescript, PostgresSQL, Redis, Cube

Education

B.E. Electronics. and Instrumentation | Birla Institute of Technology and Science, Pilani | 2020-2024 | CGPA 8.08

- Published 2 IEEE papers titled A Completely Distributed Cloudlet Framework Using 410c SOC under Prof K.R Anupama and Neural Net-Eyes: Advanced License Plate Recognition System under Prof Anita Agrawal
